

## Open Day at Sacred Heart Hospital and Care Home

The 'National University of Ireland, Galway' (NUIG) is forming collaboration with Roscommon Community College and Sacred Heart Hospital and Care Home in Roscommon to host an open day like no other. All are invited to attend the even at **Sacred Heart Hospital and Care Home** in Roscommon; **Tuesday 29th 12 pm – 2 pm.**

The event aims to provide insight to all about residential care and the most cutting edge advancements that are currently underway here in Ireland. Students and visitors will have the opportunity to meet with MARIO the companion robot and explore some of his features in a safe environment. Looking forward to seeing you there!

## Who is MARIO?

MARIO is a companion robot being designed to work with older people and people with dementia.

MARIO addresses the difficult challenges of loneliness, isolation and dementia in older persons by providing an interactive and extensible service robotics platform targeted towards healthy aging.

## Want to find out more?

The MARIO project is led by Prof. Dymrna Casey and Prof. Kathleen Murphy at National University of Ireland, Galway.

If you wish to find out further information you may contact Eva Barret at [EVA.E.BARRETT@nuigalway.ie](mailto:EVA.E.BARRETT@nuigalway.ie) or tel +35391495938 for more details about the study.
